Presentation Tips:

1. Start and end sessions on time.
2. Design the session to be interactive whenever possible. Our members enjoy interacting with polling and live commentary/Q&A. Adult learners bring differing levels of experience and content knowledge to a given topic. Identify how the presented information will benefit the participant (learning objectives).
3. When the session has more than one presenter, consult with the other presenters to organize the presentation and material so that it has a logical, structured flow; and share the presentation time to avoid the appearance of one person dominating the discussion. Schedule practices to rehearse in advance so the session flows smoothly.
4. If you plan to use PowerPoint slides, use large type (28-point font size or larger) to allow the information to be read from the back of the room. Six lines of text per page and six words per line will allow for easier viewing. Use phrases and key words to highlight your presentation instead of building text-heavy slides that will be read during your presentation. Please provide a printable handout of PowerPoint for participants if possible (submit this in advance to the AAM Office).
